_1	1		1	overturn versus the impact by the other
3	2			
	3	그리다 이 시간 교육을 가지 않는데 그렇게 하는데 사람들이 사람들이 되었다면 하는데 하는데 하는데 하는데 하는데 하는데 하는데 하는데 되었다면 하는데 되었다면 하는데 되었다면 하는데	3	separation on that.
ز	4		4	Q. Well, wouldn't a biomechanic
	5	officer at UAB, but I wasn't involved in	5	biomechanical expert be the proper person
-	6	the day-to-day surveys. It was more	6	qualified to determine what physical
j	7	administrative. And I've taught courses	7.	injuries on Mr. Morris' body were caused by
	8	in a licensure course for	8	what particular objects during the accident
	9	Q. Well, you're not a medical doctor?	9	sequence?
	10	A. No, I'm not.	10	A. I'm not trying to do that.
	111	Q. You don't hold yourself out as an expert in	11	Q. All right, sir.
	12	this case being able to determine cause of	12	A. My general experience in overturned trucks
	13	death?	13	is that the injuries that Mr. Morris
	14	A. Oh, no. No. One thing that you were	14	received the very serious injuries I've
	15	asking about formal education, I would go	15	never seen before in an overturned truck
	16	to experience also. At one point I had a	16	accident, so I would think it highly
	17	joint appointment in the forensic science	17	unlikely that these injuries would have
	18	department from the justice program, a	18	been associated with the overturn. On the
	19	graduate program. And I did for a period	19	other hand, impact by another vehicle of
	20	of time give lectures in one of their	20	comparable mass at 70 miles an hour or 60
	21	introductory graduate courses, a couple	21	miles an hour would be expected to cause
1	22	hours lecture on accident reconstruction.	22	some very serious injuries.
	23	I didn't try to make an accident	23	Q. But you're not testifying as to any
				Q. Dat you're not testifying as to any
		Page 1	8	Page 20
	1	reconstructionist out of people in two	1	specific injuries on Mr. Morris' body were
	2	hours, but I tried to show them the	2 .	caused by any specific objects during the
	3	physical basis of it and show them more or	3	accident sequence?
1	4	less what could or couldn't be done, so	4	A. I'm not trying to bring it down to that
1	.5	they would know when to yield for a	5	point, no.
	6	reconstruction and when it wasn't going to	6	Q. You're not going to give any opinions on
	7	be applicable.	7	that?
	8	Q. Do you have any training in biomechanics?	8	A. I'm just going to say that I think his
	9	A. No.	9	serious injuries were due to the impact,
	0	Q. So you don't hold yourself out in this case	10	not the overturn.
1	1	as an expert in biomechanics?	11	Q. While we're on that, what at what
	2	A. No.	12	speed Did you calculate a speed of
	3	Q. You're not holding yourself out as an	13	the And I'm going to call for purposes
0.57	4	expert in this case on what specific	14	of this deposition And we're going to
	5	injuries might have caused the death of	15	get this confused I'm sure, because I
	6	Mr. Morris in this case?	16	confuse it in my mind. I'm going to try to
1		A. No.	17	differentiate between Mr. Morris' vehicle
	8	Q. Do you hold yourself out as an expert on	18	by calling it the Kenworth vehicle and the
1		what in this case on what specific	19	vehicle driven by Mr. Thompson by calling
	-		20	
1	0	UDICUS CHISCI ANY SPECIFIC INTIFFECTO		
1:		objects caused any specific injuries to		it the Peterbilt vehicle. Now, we both
202	1	Mr. Morris?	21	know that that's just referring to the
1	1			

	Page	85	Page
	1 belt.	1	necessarily tell you that. He could tell
	 Q. Are you aware of any studies that have been 		you what the what injuries were
	done to determine injuries received from	3	associated with the fatality. But I don't
	4 seat belts?	4	think you've got the kinds of forces
	5 A. No.	5	involved with the rollover by a factor of
- 1	Q. You're not testifying today either way as	6	ten or 100 to cause the kind of injuries
- 4	to whether or not the fatal injuries to	7	that you can get from these impacts.
	Mr. Morris were caused by the seat belt?	8	O. But that that And I understand I
9	[1]	9	understand you want to give your personal
10		10	opinion, observation that you think it was
11		11	more like that you think it was more
12	[1] [1] [1] [1] [1] [1] [1] [1] [1] [1]	12	likely in your personal opinion that the
13		13	impact forces or that injuries received
14		14	after the impact with the Peterbilt could
15	:	15	have caused Mr. Morris' death. But what
16		16	I'm getting at is you don't have a
17		17	professional opinion because you're not a
18		18	medical — you're not a medical expert,
19		19	you're not a biomechanical expert, you
20		20	haven't determined what specific injuries
21	Q. Well, you're not ruling out the fact that	21	were caused by what specific objects or
22	Mr. Morris could have been fatally injured	22	forces in this case, so you can't give an
23	during the rollover in this case?	23	opinion to any degree of reasonable medical

I'm just basing it on experience looking at
2 3 4 5 6	A. In my own mind, yes. Because the nature of the injuries is not such that would be on the left side of his body. I mean, he would have bilateral injuries. And that's not going to happen when he from that rollover.	1 2 3 4 5 6	certainty as to what caused Mr. Morris' death in this case? A. No, I can't give a medical opinion or a biomedical (sic) engineering opinion. I'm just basing it on experience looking at other vehicle wrecks over the last 40 years
2 3 4 5 6 7	 A. In my own mind, yes. Because the nature of the injuries is not such that would be on the left side of his body. I mean, he would have bilateral injuries. And that's not going to happen when he from that rollover. Q. But you don't know what injuries caused his 	1 2 3 4 5 6 7	certainty as to what caused Mr. Morris' death in this case? A. No, I can't give a medical opinion or a biomedical (sic) engineering opinion. I'm just basing it on experience looking at other vehicle wrecks over the last 40 years as to what kind of forces won't cause what
2 3 4 5 6 7 8	 A. In my own mind, yes. Because the nature of the injuries is not such that would be on the left side of his body. I mean, he would have bilateral injuries. And that's not going to happen when he from that rollover. Q. But you don't know what injuries caused his death? 	1 2 3 4 5 6 7 8	certainty as to what caused Mr. Morris' death in this case? A. No, I can't give a medical opinion or a biomedical (sic) engineering opinion. I'm just basing it on experience looking at other vehicle wrecks over the last 40 years as to what kind of forces won't cause what kind of injuries.
2 3 4 5 6 7 8 9	 A. In my own mind, yes. Because the nature of the injuries is not such that would be on the left side of his body. I mean, he would have bilateral injuries. And that's not going to happen when he from that rollover. Q. But you don't know what injuries caused his death? A. I haven't All I've done is look at the 	1 2 3 4 5 6 7 8 9	certainty as to what caused Mr. Morris' death in this case? A. No, I can't give a medical opinion or a biomedical (sic) engineering opinion. I'm just basing it on experience looking at other vehicle wrecks over the last 40 years as to what kind of forces won't cause what kind of injuries. Q. But you do agree that people have been
2 3 4 5 6 7 8 9	 A. In my own mind, yes. Because the nature of the injuries is not such that would be on the left side of his body. I mean, he would have bilateral injuries. And that's not going to happen when he from that rollover. Q. But you don't know what injuries caused his death? A. I haven't All I've done is look at the autopsy report. I haven't tried to make 	1 2 3 4 5 6 7 8 9	certainty as to what caused Mr. Morris' death in this case? A. No, I can't give a medical opinion or a biomedical (sic) engineering opinion. I'm just basing it on experience looking at other vehicle wrecks over the last 40 years as to what kind of forces won't cause what kind of injuries. Q. But you do agree that people have been fatally injured in rollover accidents?
2 3 4 5 6 7 8 9 10	 A. In my own mind, yes. Because the nature of the injuries is not such that would be on the left side of his body. I mean, he would have bilateral injuries. And that's not going to happen when he from that rollover. Q. But you don't know what injuries caused his death? A. I haven't All I've done is look at the autopsy report. I haven't tried to make any determination beyond that. 	1 2 3 4 5 6 7 8 9 10	certainty as to what caused Mr. Morris' death in this case? A. No, I can't give a medical opinion or a biomedical (sic) engineering opinion. I'm just basing it on experience looking at other vehicle wrecks over the last 40 years as to what kind of forces won't cause what kind of injuries. Q. But you do agree that people have been fatally injured in rollover accidents? A. They have.
2 3 4 5 6 7 8 9 10 11 12	 A. In my own mind, yes. Because the nature of the injuries is not such that would be on the left side of his body. I mean, he would have bilateral injuries. And that's not going to happen when he from that rollover. Q. But you don't know what injuries caused his death? A. I haven't All I've done is look at the autopsy report. I haven't tried to make any determination beyond that. Q. And it would be fair to say that Mr. Morris 	1 2 3 4 5 6 7 8 9 10 11 12	certainty as to what caused Mr. Morris' death in this case? A. No, I can't give a medical opinion or a biomedical (sic) engineering opinion. I'm just basing it on experience looking at other vehicle wrecks over the last 40 years as to what kind of forces won't cause what kind of injuries. Q. But you do agree that people have been fatally injured in rollover accidents? A. They have. Q. The next comment on Defendant's Exhibit 2
2 3 4 5 6 7 8 9 10 11 12 13	 A. In my own mind, yes. Because the nature of the injuries is not such that would be on the left side of his body. I mean, he would have bilateral injuries. And that's not going to happen when he from that rollover. Q. But you don't know what injuries caused his death? A. I haven't All I've done is look at the autopsy report. I haven't tried to make any determination beyond that. Q. And it would be fair to say that Mr. Morris could have received fatal injuries in this 	1 2 3 4 5 6 7 8 9 10 11 12 13	certainty as to what caused Mr. Morris' death in this case? A. No, I can't give a medical opinion or a biomedical (sic) engineering opinion. I'm just basing it on experience looking at other vehicle wrecks over the last 40 years as to what kind of forces won't cause what kind of injuries. Q. But you do agree that people have been fatally injured in rollover accidents? A. They have. Q. The next comment on Defendant's Exhibit 2 says no evidence the belt was slash
2 3 4 5 6 7 8 9 10 11 12 13 14	 A. In my own mind, yes. Because the nature of the injuries is not such that would be on the left side of his body. I mean, he would have bilateral injuries. And that's not going to happen when he from that rollover. Q. But you don't know what injuries caused his death? A. I haven't All I've done is look at the autopsy report. I haven't tried to make any determination beyond that. Q. And it would be fair to say that Mr. Morris could have received fatal injuries in this case during the rollover? 	1 2 3 4 5 6 7 8 9 10 11 12 13 14	certainty as to what caused Mr. Morris' death in this case? A. No, I can't give a medical opinion or a biomedical (sic) engineering opinion. I'm just basing it on experience looking at other vehicle wrecks over the last 40 years as to what kind of forces won't cause what kind of injuries. Q. But you do agree that people have been fatally injured in rollover accidents? A. They have. Q. The next comment on Defendant's Exhibit 2 says no evidence the belt was slash something?
2 3 4 5 6 7 8 9 10 11 12 13 14 15	 A. In my own mind, yes. Because the nature of the injuries is not such that would be on the left side of his body. I mean, he would have bilateral injuries. And that's not going to happen when he from that rollover. Q. But you don't know what injuries caused his death? A. I haven't All I've done is look at the autopsy report. I haven't tried to make any determination beyond that. Q. And it would be fair to say that Mr. Morris could have received fatal injuries in this case during the rollover? A. I don't believe that. Because he's belted 	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15	certainty as to what caused Mr. Morris' death in this case? A. No, I can't give a medical opinion or a biomedical (sic) engineering opinion. I'm just basing it on experience looking at other vehicle wrecks over the last 40 years as to what kind of forces won't cause what kind of injuries. Q. But you do agree that people have been fatally injured in rollover accidents? A. They have. Q. The next comment on Defendant's Exhibit 2 says no evidence the belt was slash something? A. Was not worn.
2 3 4 5 6 7 8 9 10 11 11 12 13 14 15 16	 A. In my own mind, yes. Because the nature of the injuries is not such that would be on the left side of his body. I mean, he would have bilateral injuries. And that's not going to happen when he from that rollover. Q. But you don't know what injuries caused his death? A. I haven't All I've done is look at the autopsy report. I haven't tried to make any determination beyond that. Q. And it would be fair to say that Mr. Morris could have received fatal injuries in this case during the rollover? A. I don't believe that. Because he's belted in, and I don't believe he would have 	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	certainty as to what caused Mr. Morris' death in this case? A. No, I can't give a medical opinion or a biomedical (sic) engineering opinion. I'm just basing it on experience looking at other vehicle wrecks over the last 40 years as to what kind of forces won't cause what kind of injuries. Q. But you do agree that people have been fatally injured in rollover accidents? A. They have. Q. The next comment on Defendant's Exhibit 2 says no evidence the belt was slash something? A. Was not worn. Q. No evidence the belt was not worn except
2 3 4 5 6 7 8 9 10 11 11 12 13 14 15 16 17	 A. In my own mind, yes. Because the nature of the injuries is not such that would be on the left side of his body. I mean, he would have bilateral injuries. And that's not going to happen when he from that rollover. Q. But you don't know what injuries caused his death? A. I haven't All I've done is look at the autopsy report. I haven't tried to make any determination beyond that. Q. And it would be fair to say that Mr. Morris could have received fatal injuries in this case during the rollover? A. I don't believe that. Because he's belted in, and I don't believe he would have ejected from the simple rollover with his 	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	certainty as to what caused Mr. Morris' death in this case? A. No, I can't give a medical opinion or a biomedical (sic) engineering opinion. I'm just basing it on experience looking at other vehicle wrecks over the last 40 years as to what kind of forces won't cause what kind of injuries. Q. But you do agree that people have been fatally injured in rollover accidents? A. They have. Q. The next comment on Defendant's Exhibit 2 says no evidence the belt was slash something? A. Was not worn. Q. No evidence the belt was not worn except the belt locked fully.
2 3 4 5 6 7 8 9 10 11 11 12 13 14 15 16 17 18	 A. In my own mind, yes. Because the nature of the injuries is not such that would be on the left side of his body. I mean, he would have bilateral injuries. And that's not going to happen when he from that rollover. Q. But you don't know what injuries caused his death? A. I haven't All I've done is look at the autopsy report. I haven't tried to make any determination beyond that. Q. And it would be fair to say that Mr. Morris could have received fatal injuries in this case during the rollover? A. I don't believe that. Because he's belted in, and I don't believe he would have ejected from the simple rollover with his seat belt on. 	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	certainty as to what caused Mr. Morris' death in this case? A. No, I can't give a medical opinion or a biomedical (sic) engineering opinion. I'm just basing it on experience looking at other vehicle wrecks over the last 40 years as to what kind of forces won't cause what kind of injuries. Q. But you do agree that people have been fatally injured in rollover accidents? A. They have. Q. The next comment on Defendant's Exhibit 2 says no evidence the belt was slash something? A. Was not worn. Q. No evidence the belt was not worn except the belt locked fully. A. Uh-huh (positive response). In extended
2 3 4 5 6 7 8 9 10 11 11 12 13 14 15 16 17 18	 A. In my own mind, yes. Because the nature of the injuries is not such that would be on the left side of his body. I mean, he would have bilateral injuries. And that's not going to happen when he from that rollover. Q. But you don't know what injuries caused his death? A. I haven't All I've done is look at the autopsy report. I haven't tried to make any determination beyond that. Q. And it would be fair to say that Mr. Morris could have received fatal injuries in this case during the rollover? A. I don't believe that. Because he's belted in, and I don't believe he would have ejected from the simple rollover with his seat belt on. Q. We don't know You don't know Because 	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	certainty as to what caused Mr. Morris' death in this case? A. No, I can't give a medical opinion or a biomedical (sic) engineering opinion. I'm just basing it on experience looking at other vehicle wrecks over the last 40 years as to what kind of forces won't cause what kind of injuries. Q. But you do agree that people have been fatally injured in rollover accidents? A. They have. Q. The next comment on Defendant's Exhibit 2 says no evidence the belt was slash something? A. Was not worn. Q. No evidence the belt was not worn except the belt locked fully. A. Uh-huh (positive response). In extended position.
2 3 4 5 6 7 8 9 10 11 11 12 13 14 15 16 17 18 19 20	 A. In my own mind, yes. Because the nature of the injuries is not such that would be on the left side of his body. I mean, he would have bilateral injuries. And that's not going to happen when he from that rollover. Q. But you don't know what injuries caused his death? A. I haven't All I've done is look at the autopsy report. I haven't tried to make any determination beyond that. Q. And it would be fair to say that Mr. Morris could have received fatal injuries in this case during the rollover? A. I don't believe that. Because he's belted in, and I don't believe he would have ejected from the simple rollover with his seat belt on. Q. We don't know You don't know Because you're not a medical expert, you don't know 	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	certainty as to what caused Mr. Morris' death in this case? A. No, I can't give a medical opinion or a biomedical (sic) engineering opinion. I'm just basing it on experience looking at other vehicle wrecks over the last 40 years as to what kind of forces won't cause what kind of injuries. Q. But you do agree that people have been fatally injured in rollover accidents? A. They have. Q. The next comment on Defendant's Exhibit 2 says no evidence the belt was slash something? A. Was not worn. Q. No evidence the belt was not worn except the belt locked fully. A. Uh-huh (positive response). In extended position. Q. What does that mean?
2 3 4 5 6 7 8 9 10 11 11 12 13 14 15 16 17 18 19 20 20 20 20 20 20 20 20 20 20 20 20 20	 A. In my own mind, yes. Because the nature of the injuries is not such that would be on the left side of his body. I mean, he would have bilateral injuries. And that's not going to happen when he from that rollover. Q. But you don't know what injuries caused his death? A. I haven't All I've done is look at the autopsy report. I haven't tried to make any determination beyond that. Q. And it would be fair to say that Mr. Morris could have received fatal injuries in this case during the rollover? A. I don't believe that. stretch mark would have required severe enough impact that, in my opinion, that truck wouldn't still be in use if that stretch mark had come from a prior accident.

- Q. What sort of force in foot-pounds or force measurements is required to make that mark that you call a stretch mark on the belt fabric?
- A. My estimate would be several thousand pounds. I believe the tensile of those belts is something like 5,000 or 6,000 pounds. So you'd have to have some fraction -- some reasonable fraction of that to cause the stretch marks.

In a case of fairly low speed accidents, I've seen quantitative data where collisions with barriers for automobiles at 20, 25 miles an hour with results in accelerations on the occupants of 20 Gs of acceleration. This means for a few tens of milliseconds -- 100 milliseconds that the apparent weight of

impact.

the occupant is 20 times what his normal weight is. So a 100-pound person would suddenly weigh a ton. 20 Gs, a ten-pound baby suddenly weighs 200 pounds. That's the reason they tell you don't hold a baby in the car. You can't hold it during that

I think the kinds of forces we're talking about with a 60 or 70 miles an hour impact with the other truck would result in forces significantly higher than that. I'm thinking we're talking in terms of several tens of Gs. So the man sitting here in the seat with the bottom facing the truck and the truck hits it, it may momentarily be 100 Gs. This 100-pound man may for a few milliseconds weigh 10,000 pounds for just -- His bounce back from the seat then can stretch that belt very readily. We're talking about tremendous force.

Q. Have -- And I appreciate the information you gave us. Did you or Messerschmidt do any calculations in this case to determine

(334) 263-4455

- Q. Okay. He didn't give you a reason? You don't keep a personnel file on employees like that?
- A. No.

- Q. The -- We marked these, too, didn't we?

 Defendant's Exhibits 11 and 12 are your

 sworn affidavit and your March final

 version of your report; correct?
- A. Right.
- Q. All right. And I want to mark as -Defendant's Exhibits 13, 14 and 15 will
 be -- I'm going to mark these up at the top
 of the page -- what we understand from our
 quick review to be preliminary reports one,
 two and three.

(Defendant's Exhibits 13, 14 and 15 were marked for identification.)

Q. They're not numbered, but I'm numbering them Plaintiff's -- I mean Defendant's Exhibits 13, 14 and 15. And I'll just go one at a time.

Defendant's Exhibit 13 is this version. Now, we can look at it together.

- Or do you have a copy? Is that your --1 Well, I'll just ask you. Is that your --Is that your initial report? 3
 - That was the initial draft of the report, A. This was not sent out.
 - Who was that sent to? 0.

- It was internal. You said you wanted the Α. entire file, so I downloaded everything that was on the computer. What happens is when we do a preliminary report and save it, then when we start modifying it. We usually pull it up, reopen it and resave it in case of a computer glitch. So we end up with the draft and the second draft and the third draft and so forth.
- All right. So that -- Do you know when 0. that preliminary first draft was issued?
- I don't have a date on what's marked Α. preliminary report. Preliminary reports two and three are both 3/17/05.
- All right. Did you get any feedback -- Did 0. you submit the first preliminary report, Defendant's Exhibit 13 -- did you submit

- that one to Attorney Robinson or Attorney
 Penick?
 - A. Not to Penick. I can't recall if I showed that one to Robinson or not. I remember editing pretty heavily one of the things that he suggested, and I think that was the sworn affidavit. I may have faxed him a copy of the preliminary report to show him what we were -- what areas we were covering. Yeah. He has -- (Defendant's Exhibit 18 was marked for identification.)
 - Q. Let me show you Defendant's Exhibit 18.
 - A. Yes. I did send him preliminary report number two.
 - Q. Well, Defendant's Exhibit 18 is -- looks to be a fax cover sheet March 3, 2005. Is that the original preliminary report transmittal to Attorney Robinson?
 - A. I think it was.

Q. Okay. And that goes with, then,

Defendant's Exhibit 13; right? That was

the cover fax for Defendant's Exhibit 13?
